

CLERMISTON PRIMARY SCHOOL

Term 2 P4A

This term your child will be learning to:

Numeracy & Mathematics

Number

- Half 300, 500, 700 and 900.
- Find number bonds to 100.
- Multiply and divide whole numbers by 10.
- Apply knowledge of doubling and halving to multiply larger numbers (coin cards).
- Develop our knowledge of fact families.
- Add any 2-digit number to a 1-digit number e.g $84 + 7$.
- Add a 2-digit number to a 2-digit number e.g $43 + 22$.

Outer Maths (e.g. Shape, Measure, Time etc.)

- Tell the time – half past, quarter past, quarter to.
- Use am and pm appropriately.
- Use a calendar to plan for events in a school year.

Expressive Arts

Art & Design

- Use a variety of materials and techniques to create art work related to seasonal events.

Music

- Explore a variety of styles of Scottish music linked to the Edinburgh topic.

Dance

- Link a series of movements to create a Scottish dance.

Drama

- Watch a theatre performance and respond appropriately.

Technologies (inc. ICT)

- Create an object which uses an electrical circuit to light it.

Health & Wellbeing

- Assess and manage risk linked to electricity.
- Discuss what to do in an emergency.
- Develop ways to respond appropriately to situations involving bullying.

P.E

- Further develop gymnastic skills.
- Develop rugby skills

Literacy & English

Reading

- Use higher order thinking skills to answer analysing and evaluating questions.
- Explore characterisation and setting through our class novel.
- Use our knowledge of books to persuade our classmates to vote for a class novel.
- Find key words in a passage to answer comprehension questions.
- Use a dictionary to find words by 2nd and 3rd letter.

Writing

- Write a science report.
- Write a letter.
- Design a poster with the relevant information.
- Use joined writing in a wider variety of contexts.

Talking and Listening (ongoing)

- Adopt collaborative group roles.
- Listen to others as they present their novel recommendations.

Science

- Create and draw an electrical circuit.
- Explore insulators and conductors.
- Explore the role of batteries.
- Explore how to use electricity safely.
- Experiment with sound vibrations.
- Further explore the senses.

RME

- Explore the importance of light in different world religions.

Modern languages

French

- Say the numbers to 50.
- Read and say the days of the week and months.
- Speak about our likes and dislikes.
- Say words related to Christmas.

This term it would be particularly helpful if parents could:

- ensure your child's homework jotter is returned to school by Thursday each week.
- bring in a box of tissues for use in class.
- bring a P.E kit on a Monday and a Tuesday.
- provide your child with a **named**, filled water bottle every day (even if they receive milk).
- please remember to name all clothing and school resources.
